

Web / Online Coder

THE SEAL OF ASSURANCE

The Web / Online Coder prints onto a continuous moving web or film as it runs through a form-fill-seal or pouch line. Inline coders of this type typically cover printing areas from about 35 x 150 mm up to 95 x 450 mm in one to ten lines, running at line speeds up to 70 m/min and higher on fast models. It integrates into the packaging line so coding happens without a separate handling step.

SPECIFICATIONS

Type	Online coder for moving web/film	Printing area	35 x 150 mm up to 95 x 450 mm (typical)
Print height	1.2 - 12.7 mm (typical)	Line speed	Up to 70 m/min typical; high-end to ~210 m/min (typical)
Print lines	1 - 10 (typical)		

APPLICATIONS

Coding on moving film and web · Form-fill-seal line coding · Pouch line coding · Inline date and batch marking

INDUSTRIES

Food and beverage · FMCG · Pharmaceuticals · Packaging
