

Gloria MX Pro 1530 CTC

THE SEAL OF ASSURANCE

The Pro high power cutter with a compact table change that exchanges sheets quickly in a tighter footprint than a full exchange line. It delivers the same 12 to 30 kW output and 60 m per minute cutting as the larger TC machines while saving floor space. For shops that want high power throughput where room is limited.

SPECIFICATIONS

Laser power	12 - 30 kW	Working area	1500 x 3000 mm (standard; larger beds built to order)
Table system	Compact table change (CTC)	Laser source	IPG / Raycus fiber
Wavelength	1080 nm	Cutting head	Bochu
Max cutting speed	60 m/min	Max travelling speed	140 m/min
Position accuracy	+/-0.04 mm	Min line width	0.12 mm
Acceleration	2 G	Cooling	Water cooling
Drive	AC servo motor	Working voltage	AC 420V

APPLICATIONS

High power sheet cutting · Fast sheet exchange production · Space constrained high power lines

INDUSTRIES

Heavy fabrication · Structural steel · General engineering · Contract manufacturing
