

# MegaX 850x1000 CNC Bandsaw

THE SEAL OF ASSURANCE

The MegaX 850x1000CNC is a double-column CNC bandsaw for billet and large-section cutting up to 850 mm round and 850 x 1000 mm square. A 15 HP drive, hydraulic blade tension, programmable saw feed from 1 to 350 mm/min and a smart cutting system with material selection deliver controlled, high-volume cuts behind a CE safety enclosure. It is the flagship of the range for steel mills and heavy fabricators.

## SPECIFICATIONS

Type	<b>Double-column CNC fully-automatic bandsaw</b>	Automation	<b>CNC, HMI + buttons, PLC, material detection</b>
Cutting capacity (round)	<b>850 mm</b>	Cutting capacity (square)	<b>850 (H) x 1000 (W) mm</b>
Blade size	<b>9080 x 67 x 1.6 mm</b>	Blade speed	<b>15-80 m/min</b>
Saw motor	<b>15 HP / 11.25 kW</b>	Hydraulic motor	<b>3 HP / 2.25 kW</b>
Coolant pump	<b>0.18 HP</b>	Multiple feed	<b>800 mm x 9 times</b>
Saw feed speed	<b>1-350 mm/min</b>	Weight	<b>8000 kg approx.</b>

## APPLICATIONS

Billet cutting · Large-section steel cutting · High-volume CNC production

## INDUSTRIES

Steel service · Heavy fabrication · Steel mills
