

VM 50 CNC Circular Saw

THE SEAL OF ASSURANCE

The VM 50 is a cold-cut circular saw for high-speed, clean cuts on tube, pipe and bar stock up to 50 mm. Cold sawing produces a burr-free, square cut face that needs little finishing, making it suited to production cutting where edge quality matters. Full specifications are available on request.

SPECIFICATIONS

Type	Cold-cut circular saw	Cutting capacity (round)	50 mm
Automation	NC / CNC	Warranty	12 months

APPLICATIONS

Cold-cut sawing · Tube and pipe cutting · Bar cutting · Production cutting

INDUSTRIES

Metal fabrication · Production cutting · General engineering
